LSCM Logistics Summit 2023

The Role of Smart Logistics in Facilitating the Greater Bay Area Development

Introduction

The rising trend of e-commerce, along with the maturity of technologies such as big data, artificial intelligence and IoT have led to the rapid digital transformation of the logistics industry. Real-time information exchange, automation, visualisation of delivery processes, etc. have become essential in the logistics system.

In this year's LSCM Logistics Summit, speakers and distinguished guests will discuss how the recent technology advancement has facilitated the development of Smart Logistics in Hong Kong and its significance to the development of the Greater Bay Area. Government officials, industry experts, business leaders and academia representatives will gather to explore the opportunities that technology advancement will bring along and share the recent industry updates.

Event details

Date: 11 October 2023 (Wednesday)
Time: 9:00am – 4:30pm
Format: Conference and Exhibition
Venue: Grand Hall and Function Hall, Hong Kong Science Park
